Women's Day Message Of Hon'ble Lt. Governor

A message to all my sisters and daughters of Puducherry on this women's day.

My sisters and daughters of Puducherry.

You may be living anywhere, in urban or rural area, remember you can be empowered with the following three Ms..if you understand and practice it.

First M...Is your mind power.

Educate your self. With knowledge and information. If you are a student be your own teacher. Research yourself. Today the internet enables you to do. Take full advantage of your school/college/university or community libraries and use them. Education is power. This is about making your mind muscle strong.

I wait to see the better educated join the administrative services and running the Administration one day as public officials.

Prepare and compete.

It's by your joining in, will one day, Puducherry be prosperous.

Take her in your hands at the earliest.

Second M...is Mobility.

Be mobile. Move beyond homes to learn a skill and earn. Do not limit your capability to being good mothers and wives. Be good earners also by being skilled. Enrol yourself for a skill program if one close by. Or travel to do. Be mobile.

Third M is Money. You must learn to earn and also spend for your own self and provide for those you care.

Be self reliant.

Be physically agile, be educated, earn money and be self respecting.

Do not tolerate any domestic abuse. The police and social welfare services are for your protection and care. Use us...Use the Government resources.

It does not matter whether you are poor or rich, old or young, student or a housewife, each of you need to practice the power of three Ms. For your self and for your daughters..

If you all do so, Puducherry will be a safer, self respecting and self reliant society. With knowledgeable and happy society.

I wish you all the very best on this women's day.

Signed...

Your Lt Governor Sister. Kiran Bedi.
